The Skipper has 10.000 sea miles experience, and the boat is a family-owned operation. Food as well as port fees and fuel will be paid from the onboard cashbox. The onboard cashbox contains funds from all of the passengers, and so it is important that each passenger is prepared to bring on cash before the voyage in the amount specified by the skipper before the voyage.

On board are swimming fins, snorkel, small diving gear, swimming platform with a fresh-water shower and a Dingie. The skipper speaks enough English to point out the amenities and to keep you entertained - if you require a translator, his son from Edmonton is available.
